Re: Public Comment Form
Comments relating to: SNAKE PIT A TRAIL
Route ID Numbers: **HN889, HN893, HN890, HN22J**

Dear Sirs,

I am opposed Route Alternative Map C. I support Route Alternative Map A and could support Map D if HN22J was open.

On Map C all of these routes are closed except one. Unacceptable. On Map D all of these routes are open mitigate except HN22J. This route is in the middle of the track is one of the more technical aspects of the track. Closing this route would destroy the technical aspect of this run. Some jeepers enjoy a little challenge in addition to enjoying the beauty of the desert. This route provides that. Along with the challenge comes the necessity to have your jeep lifted and locked, which then puts money into the community. Being a technical trail mechanical problems do happen and getting it repaired again brings money into the community. The needs of the public for motorized recreational opportunities include a variety of trails for different skill levels. Also, routes with minimal traffic are needed as practice for beginning drivers.

In closing, I support Route Alternative Map A and would support Route Alternative Map D with the opening of route HN22J indicated as being open on Map D. Not only does it increase the enjoyment of the jeepers but it does have a financial impact on the community as it draws people from other communities and from out of state.
